150+ CLAUDE VIDEO CODES

161 CODES THAT EDIT YOUR VIDEOS FOR YOU

Upload a video into Claude, type one code, and you get back a finished edit. Captions, cuts, zooms, tier lists, color grades and full reel templates. Every code from my videos is in here, plus hundreds more.

All 6 reel template codes from my video, right up top
27 talking-head reel templates, including Higgsfield's built-in effects
Cuts, captions, zooms, color, sound, b-roll, formats, effects and ads
The two-minute Higgsfield setup (run them on Opus 5.5 with Max effort)

Updated October 2026

How To Use These

Open Claude, switch to **Opus 5.5** on **Max** effort, attach a video of you talking, type the code and hit enter. For example: **/ranking-format** on a clip where you rank AI tools, or **/dead-space** on a raw take, or **/youtube-clips** on a long video. That's the whole trick. Add one line if you want it a specific way ("/captions-pop, yellow highlight, keep them above my chin").

You can stack them too: **"/dead-space /captions-pop /zoom"** in one message. And you can keep going after any of them: **"slower," "smaller text," "make three versions."**

BEFORE YOU START

A Claude account with Opus 5.5 and a Higgsfield account. Claude does the thinking and Higgsfield does the video work, so you connect them once below. You have to run these on **Opus 5.5** with effort set to **Max**. Shoot vertical (9:16) and keep clips under a minute for the talking-head templates.

Set It Up (About Two Minutes, Once)

STEP 1: Get a Higgsfield account

Go to higgsfield.ai and sign up. New users get a free trial. Codes that make new AI footage use Higgsfield credits, so start the trial first. If you're only testing, cancel the auto-renewal inside Higgsfield.

STEP 2: Add the connector

In Claude, click **Customize** in the left sidebar, then **Connectors**. Click **+ Add** and choose **Add custom connector**. Name it **Higgsfield**, paste this link and click **Add**: <https://mcp.higgsfield.ai/mcp>

STEP 3: Sign in

Click **Connect**, log into your Higgsfield account and approve. You only do this once.

STEP 4: Switch to Opus 5.5 on Max

Click the model button under the message box and choose **Opus 5.5**. Then open **Effort** in the same menu and pick **Max**. You have to do this for the codes to work the way they do in my videos. Max uses more of your usage limit, and it's worth it here.

STEP 5: Turn it on and test it

In a new chat, click the **+** next to the message box, open **Connectors** and make sure Higgsfield is on. Then attach a short clip of you talking and type **/captions**. If a captioned video comes back, you're set.

HEADS UP

On Claude's Free plan you get one custom connector, so if you already have one, remove it or upgrade.

TIP

Stack them for a full reel: `/dead-space` to tighten it, `/grade-wipe` for the look, `/ranking-format` for the tier list, `/captions-pop` on top, then `/trial-reels` for five versions to test. Five codes, one finished video.

All The Codes

Before you type any of these, check you're on **Opus 5.5** with **Max** effort. Looking for one you saw in a video? Press Ctrl+F (Cmd+F on a Mac) and type it in. None of these are magic words: Claude reads the code, works out the edit and runs it through Higgsfield, so you can make up your own the same way.

From My Videos

<code>/depth-ui-reel</code>	App screens float in 3D layers around you as you talk	<code>/ranking-format</code>	A live tier list that fills in as you rank each thing
<code>/personal-short-form</code>	Your story as a reel: hook, captions and b-roll panels	<code>/business-short-form-reels</code>	A business reel with stat cards and key points on screen
<code>/coaching-call-clips</code>	Turns a long coaching or Zoom call into short clips	<code>/youtube-clips</code>	Cuts your long YouTube video into ready-to-post shorts

Higgsfield's Built-In Effects

These are Higgsfield's own commands, so they work exactly as typed. Add **bold**, **neon** or **red** after any of them for a different color style.

<code>/text-behind</code>	A huge word appears behind your head on key moments	<code>/tier-list</code>	Each thing you rank drops into its row as you say it
<code>/freeze-frame</code>	Freezes on you and tags each new name, item or step	<code>/glass-graph</code>	A glass chart pops up every time you say a number
<code>/over-the-shoulder</code>	Before and after numbers appear right behind you	<code>/captions</code>	Word-by-word captions (spotlight, cascade or classic)
<code>/grade-wipe</code>	A wipe that relights and color grades your whole video		

More Reel Templates

<code>/myth-vs-fact</code>	Myth and Fact cards flip in as you bust each one	<code>/listicle-reel</code>	A numbered list builds on screen as you go
<code>/three-tips</code>	Big 1, 2, 3 cards land on each tip	<code>/story-time</code>	Slower pace, warm colors and chapter titles for a story
<code>/hot-take</code>	A bold opener card and red accents for an opinion video	<code>/news-desk</code>	A breaking-news banner and ticker under you

/podcast-clip	Podcast look with name cards and a sound wave	/tutorial-steps	Step numbers and screen panels as you explain
/before-after-reel	Split-screen before and after with a swipe	/reaction-split	You on the bottom, what you're reacting to on top
/green-screen	You talking over any screenshot, article or website	/quote-card	Your best line turns into a big quote card
/day-in-the-life	Time stamps and quick cuts for a vlog-style reel	/testimonial-reel	A client review reel with name card and stars

Cuts & Pacing

/dead-space	Cuts every pause and silence out of your video	/um-remover	Removes every um, uh and filler word
/retake-remover	Keeps only your best take of every repeated line	/jump-cuts	Tight jump cuts so there's never a slow second
/tighten	Trims every sentence a little for a faster video	/hook-first	Moves your strongest line into the first 3 seconds
/shorten-30	Cuts it down to the best 30 seconds	/shorten-60	Cuts it down to the best 60 seconds
/storyboard	Plans every cut, caption and effect before editing	/full-edit	Cuts, captions, zooms and sound in one go
/pacing-fast	Faster cuts and more movement for short form	/pacing-calm	Slower cuts with more breathing room
/loop-ending	Makes the ending flow right back into the start	/best-moments	Pulls the 5 strongest moments from a long video
/remove-section	Cuts any part you describe ("remove the pricing bit")	/cover-cuts	Covers every cut with b-roll so jumps don't show

Captions & On-Screen Text

/captions-pop	Captions that pop on every word	/captions-karaoke	The word you're saying lights up
/captions-classic	Clean two-line captions, no animation	/captions-emoji	Captions with an emoji on the key words
/keyword-highlight	The important words show up in color	/title-card	An opening title card with your hook
/lower-third	Your name and title under you, TV style	/callout	An arrow and label pointing at what you mention
/on-screen-list	Bullet points build next to you as you talk	/text-slam	Big single words slam onto the screen
/translate-captions	Your captions in any language you name	/cta-card	A follow or comment card at the end
/chapter-titles	Section titles for a longer video	/source-card	A small source card under any fact or stat you say

Zooms, Motion & Transitions

/zoom	Punch-in zooms so your video never feels slow	/slow-zoom	A slow push-in for serious moments
/shake	Camera shake on the big moments	/whip-transition	A fast whip pan between clips
/glitch-transition	A digital glitch between cuts	/flash-cut	A white flash on every hard cut
/speed-ramp	Slows down, then speeds up on the key moment	/freeze	Freezes the frame with a record-scratch moment
/split-screen	Two clips side by side	/picture-in-picture	Your face in a corner over a screen recording
/parallax	Turns a photo or screenshot into 3D motion	/swipe-reveal	Each new clip swipes in over the last one
/spin-transition	A spinning transition between scenes	/face-track	Keeps your face centered as you move

Color & Look

/color-grade	Makes it look shot on a cinema camera	/cinematic	Widescreen bars, rich colors and film grain
/film-look	Warm 35mm film colors and grain	/teal-orange	The Hollywood teal-and-orange look
/bright-clean	Bright, clean creator-style colors	/moody	A darker, high-contrast moody look
/black-white	High-contrast black and white	/vhs	A grainy old VHS tape look
/camcorder	A 2000s camcorder look with a date stamp	/golden-hour	Relights your video like it was shot at sunset
/night-mode	Turns daytime footage into night	/match-color	Makes every clip match the same look
/fix-lighting	Brightens a dark or badly lit video	/vignette	Soft dark edges that pull eyes to you

Sound & Music

/sfx	Whooshes, pops and hits on every effect	/music-bed	A matching background track under your voice
/clean-audio	Cuts background noise and echo	/voice-boost	A louder, clearer voice at one steady level
/beat-sync	Cuts land right on the beat of the music	/duck-music	Music drops when you talk and comes back in the gaps
/dub	Dubs your video into any language you name	/swap-voice	Changes your voice into a different one
/intro-sting	A short sound hit on your opening line	/outro-music	A music swell under your ending

Repurpose & Formats

/vertical	Turns a horizontal video into 9:16	/horizontal	Turns a vertical video into 16:9 for YouTube
/square	A 1:1 version for the feed	/all-formats	9:16, 1:1 and 16:9 versions at once
/trial-reels	Five different cuts to post as trial reels	/podcast-clips	Short vertical clips from a full podcast episode
/teaser	A 10-second teaser of your long video	/recap	A fast recap of the whole video
/upscale	Sharper, higher-quality footage	/thumbnail	A YouTube thumbnail made from your video
/cover	An Instagram cover frame with your title	/carousel	Turns your video into a slide carousel

AI B-Roll & Restyles

/broll	AI b-roll for every point you make	/product-broll	B-roll of your product every time you mention it
/background-swap	Puts you somewhere else, same moves	/remove-background	Cuts you out of the background
/anime-version	Redraws your whole video as anime, same moves	/claymation	Your video as claymation
/lego-world	Your video rebuilt in toy bricks	/cartoon	A 3D cartoon version of your video
/comic-book	A comic-book version with ink and panels	/sketch	A pencil-sketch version of your video
/outfit-swap	Changes your outfit for the whole video	/object-swap	Replaces any object with something else
/motion-copy	Copies the moves from one video onto you	/extend	Adds a few more seconds of AI footage to a clip

Video Effects

These make brand new AI footage of you from a photo or clip, so they use Higgsfield credits.

/earth-zoom-out	Camera pulls back from you all the way out to space	/earth-zoom	Camera dives from space through the clouds to you
/eyes-in	Camera dives into your eye and out into a new world	/vanish	You disappear and your clothes drop to the floor
/disintegrate	You crumble away into dust and floating particles	/clones	Clones of you copy your moves as you walk to camera
/melt	You melt into a shiny puddle on the ground	/levitate	You slowly float up off the ground
/angel-wings	Wings spread open from behind your shoulders	/money-rain	Cash falls around you in slow motion
/crash-zoom	A fast, dramatic zoom straight into your face	/turn-to-ice	You slowly freeze over and turn to ice

/turn-to-stone	You harden and crack into a stone statue	/flame-on	You burst into flames in a fiery transformation
/thunder-god	Your eyes glow as lightning crackles around you	/giant-grab	A giant hand reaches down from the sky and grabs you
/red-carpet	Your red carpet entrance with flashing cameras	/superstar	Your face fills a stadium screen as the crowd films
/moonwalk	You walk across the Moon with the Earth behind you	/sticker-peel	A giant hand peels you off the wall like a sticker
/selfie-twin	Your twin walks in, takes a selfie with you, vanishes	/high-flip	Camera flips over your head into a new scene
/act-natural	You freeze mid-move while the world keeps going	/street-colossus	You become a giant towering over the city
/world-morph	The landscape lifts and folds up around you	/y2k-paparazzi	A grainy 2000s paparazzi clip of you
/cloud-surf	You surf through dreamy pink clouds	/monster-dab	A giant creature crashes down from the sky behind you

Ads & Business

/ugc	A creator-style review video of your product	/product-spin	A 360 spin video of your product
/product-reel	A 15-second product reel with text on screen	/ad-variations	10 versions of your ad with different people
/ad-remake	Your ad remade for another country or language	/unboxing	An unboxing video of your product
/app-demo	A demo reel built from your app screenshots	/website-tour	A scroll-through tour video of your website
/explainer	A narrated animated explainer, no camera needed	/logo-reveal	An animated logo reveal
/testimonial	A short customer review clip	/offer-reel	Your offer, price and call to action as a short ad
