5 SECRET HEADSHOT CODES FOR CHATGPT

PLUS 45 MORE HEADSHOT CODES

Upload a selfie, type one code, and ChatGPT turns it into a headshot that looks like a pro took it. The 5 from my video are up top, with a photo of exactly what each one makes, then 45 more.

The 5 codes from my video, plus 5 more, each with a real example photo

40 more codes for work, speaking, outdoors, lighting and quick fixes

One copy-paste setup so ChatGPT knows every code

Works on any ChatGPT plan, including free

Updated November 2026

How It Works

Three steps. That's it.

STEP 1: Upload a selfie

Open ChatGPT and tap the **+** next to the message box to add a photo of yourself. A clear, front-facing photo in good light works best. No sunglasses, nothing covering your face.

STEP 2: Type the code

Type any code from this guide, like **/linkedinheadshot**, and send it.

STEP 3: Keep going

Like it? Type another code on the same photo. Want a tweak? Just say it: "bigger smile," "blue background," "make it square for my profile."

BEFORE YOU START

Any ChatGPT plan works, including free (free accounts get fewer images a day). Use the ChatGPT app on your phone so you can take the selfie right there.

TIP

Stack two codes for a combo: **/suitup /goldenhour** puts you in a suit at sunset.

The 5 Codes From My Video

Here's exactly what each one makes. Upload your selfie, type the code, done.

CODE 1 | TYPE THIS

`/linkedinheadshot`

A clean corporate headshot with studio lighting that looks exactly like you

CODE 2 | TYPE THIS

`/filmcamera`

A candid shot that looks like it was taken on 35mm film

CODE 3 | TYPE THIS

KEYNOTE

Puts you on stage under the lights like you're giving a presentation

CODE 4 | TYPE THIS

/suitup

Puts you in a perfectly tailored suit without changing anything else about you

CODE 5 | TYPE THIS

/goldenhour

Takes you outside at sunset with that soft glow photographers charge a fortune for

5 More Favorites

Same thing: upload your selfie and type the code.

CODE 6 | TYPE THIS

`/editorialbw`

A black and white magazine portrait with dramatic studio light

CODE 7 | TYPE THIS

`/founder`

A startup founder shot in a bright loft office, like a press feature

CODE 8 | TYPE THIS

/podcast

You mid-episode in a pro podcast studio, mic and all

CODE 9 | TYPE THIS

/cinematicnight

A night street portrait that looks like a frame from a movie

CODE 10 | TYPE THIS

/oldmoney

Quiet luxury on a sunny villa terrace by the sea

Teach ChatGPT Every Code

The codes work on their own, because ChatGPT reads the name and works out the look. Do this once and it nails every code every time, keeps your face the same and makes every photo ultra realistic.

STEP 1: Copy the setup prompt

SETUP PROMPT | COPY & PASTE

```
I use headshot codes. When I upload a photo of myself and type a code like
/linkedinheadshot, /suitup or KEYNOTE, treat it as a shortcut: work out the look from the
name and make the image right away. Don't explain the code back to me.

Always use my photo and keep my face exactly the same so it looks like me. Make it ultra
realistic, like a real photo from a professional photographer. Vertical 4:5 unless I ask
for something else.

If I type more than one code, combine them (for example /suitup /goldenhour). If I add
words after a code, follow them (for example /linkedinheadshot with a blue background).
Only ask me a question if you really can't make it without the answer.
```

STEP 2: Paste it into your custom instructions

In ChatGPT, open **Settings**, then **Personalization**. Under **Custom instructions**, paste the prompt in and save. Already have instructions there? Add it underneath.

STEP 3: Test it

Start a new chat, upload a selfie and type **/linkedinheadshot**. Don't want it saved? Paste the prompt at the top of a chat instead and the codes work in that chat.

40 More Headshot Codes

Same idea: upload your selfie and type the code. Looking for one you saw in a video? Press Ctrl+F (Cmd+F on a Mac) and type it in. ChatGPT reads the code and works out the look, so you can make up your own the same way.

Work & LinkedIn

`/officewindow`	Soft window light in a modern office, blurred desks behind you	`/creativepro`	A relaxed headshot for designers and creatives, color backdrop
`/lawyer`	Wood-panelled office, dark suit, calm and trustworthy	`/nurse`	Scrubs and a friendly smile in a bright clinic
`/teacher`	A warm classroom portrait with books softly blurred behind	`/salesteam`	Bright, smiling and approachable, perfect for a team page
`/remoteworker`	You at a home desk with a laptop, natural light	`/companybio`	A clean bio-page photo that matches a white website

Speaker & Creator

`/panel`	You speaking on a conference panel, mic in hand	`/youtuber`	A bright creator shot in front of your setup, ring-light glow
`/bookcover`	A thoughtful author portrait for the back of your book	`/coursecover`	A friendly, confident photo for a course or webinar cover
`/newsanchor`	A polished TV-studio portrait with a blurred news set	`/tedx`	On a red-carpet stage in one spotlight, mid-talk
`/magazinefeature`	A full-page magazine profile photo, styled and lit	`/behindthescenes`	A candid shot of you working, like a photographer caught it

Outdoor & Lifestyle

`/beachportrait`	Barefoot on the sand at sunset, linen shirt	`/cityrooftop`	A rooftop at dusk with the skyline glowing behind
`/cafe`	A cozy cafe window seat, coffee in hand	`/mountaintop`	Standing on a summit with clouds below you
`/streetstyle`	A fashion street-style shot on a busy city sidewalk	`/snowday`	Wool coat and falling snow, soft winter light
`/garden`	Surrounded by greenery in soft afternoon light	`/travel`	An effortless travel photo in a famous city, no tourists

Looks & Lighting

`/softglow`	Soft, flattering beauty light with a creamy background	`/moody`	Low-key light and deep shadows for a serious look
`/neon`	Pink and teal neon light, nightclub energy	`/rembrandt`	Classic painter-style light with a triangle on your cheek
`/polaroid`	You on a Polaroid with the white frame and faded color	`/90sportrait`	A 1990s school-photo style portrait, laser background and all
`/vogue`	A high-fashion studio shot with bold styling	`/ultrarealistic`	The most natural, photo-real version of your selfie

Fixes & Swaps

`/fixmyselfie`	Fixes a bad selfie: straightens it, fixes the light, keeps your face	`/smile`	Gives you a natural, relaxed smile
`/backgroundswap`	Keeps you exactly the same and swaps the background	`/fourversions`	Four different headshots from one selfie to pick from
`/squareprofile`	Crops and centers you for any profile picture	`/matchmyteam`	Matches your colleague's headshot so the team page looks the same
`/greyhair`	Shows you with silver hair, same face	`/clearskin`	Calms redness and shine without making you look fake

DO THIS TODAY

Take a selfie by a window, upload it to ChatGPT and type **/linkedinheadshot**. Then swap your profile picture everywhere. Save this PDF so the codes are with you.
