

Maverick's Claude Secret Codes

100 prompt shortcuts organized by category

Clean black-and-white edition

Core Writing & Style	Artifacts & Creation	Thinking & Reasoning
Learning & Mastery	Analysis & Strategy	Creative & Content
Coding & Technical	Research & Deep Dives	Power Commands
Hidden Modes		

Each code below changes how Claude responds by forcing a specific mode, format, or reasoning pattern.

Core Writing & Style

/ghost

Rewrites text so it's impossible to tell AI wrote it.

/mirror

Matches your exact writing style from a sample you give it.

/raw

Strips all formatting and gives a clean plain response.

/voice

Locks in a specific tone and keeps it the entire conversation.

/punch

Makes every sentence hit harder and more direct.

/flow

Restructures text so it reads smoother from start to finish.

/trim

Cuts the fluff without losing any meaning.

/hook

Rewrites the opening line to grab attention instantly.

/rephrase

Says the same thing in a completely different way.

/polish

Makes rough text sound professional without changing the meaning.

Artifacts & Creation

ARTIFACTS

Generates a full interactive project you can use immediately.

/buildme

Creates a complete working app or tool from a description.

DASHBOARD

Builds a live data dashboard you can interact with.

PROTOTYPE

Generates a working prototype from just an idea.

CANVAS

Opens a visual workspace for designing layouts and diagrams.

/render

Turns a description into a visual output inside the chat.

BLUEPRINT

Creates a full project plan with files and structure.

WIREFRAME

Designs a basic layout for a website or app screen.

/livecode

Writes and runs code in real time so you can see it work.

GENERATOR

Builds a reusable tool that creates outputs on demand.

Thinking & Reasoning

OODA

Analyzes a situation through observe, orient, decide, and act.

/deepthink

Forces Claude to reason through every layer before answering.

L99

Pushes the response to the highest possible level of depth.

CHAINLOGIC

Walks through each reasoning step so you can follow the logic.

/blindspots

Finds what you're missing that you didn't think to ask about.

OVERTHINK

Deliberately over-analyzes to catch details everyone else misses.

/unpack

Breaks a complex idea into every piece that makes it work.

INVERT

Solves the problem by thinking about it completely backwards.

/layered

Gives the answer at surface level, mid level, and expert level.

XRAY

Sees through the obvious answer to find what's really going on.

Learning & Mastery

/teachme

Turns the response into a lesson instead of just an answer.

GAPFINDER

Identifies exactly what you don't know about a topic.

/eli5

Explains it so simply a five year old would get it.

MASTERCLASS

Teaches a topic like a world-class expert would.

/drill

Creates practice exercises so you actually learn it.

SPEEDRUN

Teaches you the fastest possible path to understanding something.

/mentor

Gives advice like a personal mentor who knows your situation.

LEVELUP

Figures out your current level and teaches you the next one.

CRASHCOURSE

Gives you everything you need to know in five minutes.

BOOTCAMP

Builds a full learning plan from beginner to advanced.

Analysis & Strategy

/redteam

Tears your idea apart to find every weakness.

PARETO

Finds the 20% of actions that drive 80% of results.

/swot

Runs a full strengths, weaknesses, opportunities, threats analysis.

WARGAME

Simulates how competitors or opponents would respond.

/premortem

Imagines your plan already failed and figures out why.

LEVERAGE

Finds the one move you can make that changes everything else.

/audit

Reviews your work and flags every issue it can find.

BOTTLENECK

Identifies the one thing slowing everything down.

/scenario

Plays out multiple futures so you can plan for each one.

BLINDSPOT

Surfaces the risks and angles you haven't considered yet.

Creative & Content

/viral

Rewrites content so it's optimized to get shared.

HOOKS10

Generates ten opening hooks for any topic.

/storysell

Turns a boring message into a story people want to read.

REMIX

Takes two unrelated ideas and smashes them into something new.

/angles

Gives you ten completely different ways to approach one topic.

CLIFFHANGER

Writes an ending that makes people desperate for more.

/captionme

Writes social media captions that actually get engagement.

POLARIZE

Makes your take bold enough that people have to respond.

/banger

Turns a flat line into something people screenshot and share.

THUMBNAIL

Writes a title or headline designed to get clicks.

Coding & Technical

/debug

Finds the bug in your code and explains what went wrong.

REFACTOR

Cleans up messy code without changing what it does.

/shipit

Takes rough code and makes it production ready.

ARCHITECT

Designs the full system structure before writing any code.

/convert

Rewrites code from one language into another.

AUTOMATE

Turns a manual process into a script that runs itself.

/testit

Writes tests for your code so you know it actually works.

SCAFFOLD

Sets up the entire file structure for a new project.

/optimize

Makes code faster without breaking anything.

APIBUILD

Creates a full API from a plain English description.

Research & Deep Dives

/deepdive

Goes far beyond the surface on any topic.

FACTCHECK

Verifies claims and flags anything that might be wrong.

/sources

Backs up every statement with where the information came from.

COMPARE

Puts two or more options side by side with a clear winner.

/investigate

Researches a topic like a journalist chasing a story.

TRENDSCAN

Identifies what's happening right now in any space.

/extract

Pulls the exact information you need from a long document.

TIMELINE

Maps out the full history of a topic in order.

/digest

Reads everything and gives you only what matters.

DOSSIER

Compiles a full briefing on any topic, person, or company.

Power Commands

/godmode

Unlocks the most detailed and comprehensive response possible.

/autoprompt

Takes your rough idea and builds the perfect prompt for it.

MEGAPROMPT

Generates a long detailed prompt that gets exactly what you want.

/chain

Runs multiple prompts in sequence, each building on the last.

/system

Writes a custom system prompt that changes how Claude behaves.

PERSONA

Makes Claude respond as a specific type of expert.

/memory

Tells Claude to remember specific details for the whole conversation.

CONTEXT

Loads background information so every response is more relevant.

/rolelock

Locks Claude into a specific character for the rest of the chat.

PROMPTFIX

Takes a bad prompt and rewrites it so it actually works.

Hidden Modes

/nofilter

Gives the most direct and unfiltered honest opinion possible.

BEASTMODE

Pushes the output quality to the absolute maximum.

/therapist

Talks through a situation with you like a trained therapist would.

CEOMODE

Responds like a CEO making high-stakes business decisions.

/negotiate

Writes a negotiation script designed to get you the best deal.

FOUNDER

Gives startup and business advice from a founder's perspective.

/closer

Writes sales copy or messages designed to close the deal.

OPERATOR

Handles a task end to end without needing more input.

/unlocked

Removes the default caution and gives the real answer.

SENTINEL

Reviews everything for errors, risks, and missed details.
