

Maverick's Gemini Secret Codes

100 prompt shortcuts organized by category

Clean black-and-white edition

Google Integration	Research & Fact-Checking	Writing & Editing
Explanation & Learning	Analysis & Strategy	Creative & Content
Thinking & Reasoning	Formatting & Output	Utility & Power Commands

Each code below changes how Gemini responds by forcing a specific mode, format, or reasoning pattern.

Google Integration

@Gmail

Searches your Gmail inbox and pulls real emails, threads, and attachments.

@Drive

Finds and reads files stored in your Google Drive.

@Docs

Pulls content from a specific Google Doc into the conversation.

@Sheets

Reads data and tables from your Google Sheets.

@Calendar

Checks your Google Calendar for events, conflicts, and availability.

@Maps

Pulls location data, directions, and place details from Google Maps.

@YouTube

Searches and summarizes YouTube videos on any topic.

@Keep

Accesses your notes and lists from Google Keep.

@Tasks

Pulls your to-do items from Google Tasks.

@Slides

Reads content and speaker notes from your Google Slides.

@Contacts

Looks up people and details from your Google Contacts.

@Flights

Pulls flight prices, routes, and travel options from Google Flights.

Research & Fact-Checking

/factcheck

Uses Google Search to verify every claim in real time.

/deepresearch

Runs an extended multi-step research process before answering.

/source

Finds and cites the original source behind a claim.

/trending

Shows what is trending right now on any topic.

/latest

Pulls only the most recent information available online.

/crosscheck

Compares a claim across multiple independent sources.

/evidence

Backs up a statement with supporting data and studies.

/mythbust

Tests a common belief and shows whether it actually holds up.

CITETHIS

Adds proper citations and references to every claim in the answer.

DATAMINE

Digs through available data to find patterns and numbers.

ORIGINSCAN

Traces a topic back to where it originally started.

Writing & Editing

/polish

Cleans up grammar, flow, and readability without changing the voice.

/tighten

Removes filler words and makes every sentence count.

/voice

Matches the writing style to a specific person or brand you name.

/hook

Writes a strong opening line designed to grab attention.

/closer

Writes a strong closing line or call to action.

/pivot

Rewrites content for a completely different audience.

/warmup

Makes cold or stiff writing feel more personal and approachable.

/punch

Adds impact and energy to flat or boring writing.

/trim

Cuts the word count in half while keeping the core meaning.

/mirror

Rewrites text to match the tone of a sample you provide.

/deAI

Removes patterns that make the writing sound AI-generated.

Explanation & Learning

EL5

Breaks any topic down so a five-year-old can understand it.

ONEPAGER

Condenses everything you need to know onto a single page.

/mentor

Responds as a patient teacher guiding you through a concept.

DUMBITDOWN

Strips away all jargon and makes the answer dead simple.

/gapfinder

Identifies what you are missing or do not understand yet.

WALKTHROUGH

Takes you through a process one step at a time with explanations.

METAPHOR

Explains a concept using a creative comparison to something familiar.

LAYERS

Explains a topic at three levels: beginner, intermediate, and expert.

/masterclass

Gives a deep, expert-level lesson on any topic.

TEACHBACK

Asks you to explain it back to check if you actually understand.

VISUALIZE

Describes a concept as a mental image or diagram you can picture.

Analysis & Strategy

/compare

Puts any set of options side by side with a detailed breakdown.

FUNNELMAP

Maps out each stage of a process and where things drop off.

/audit

Reviews something thoroughly and flags every issue it finds.

BLINDSPOT

Identifies what you are overlooking or not considering.

GAMEBOARD

Maps the key players, moves, and dynamics in a competitive situation.

/forecast

Projects likely outcomes based on current trends and data.

LEVERAGE

Finds the single highest-impact move you can make right now.

BATTLECARD

Creates a competitive comparison sheet against a specific rival.

/diagnose

Identifies the root cause of a problem instead of just the symptoms.

PLAYBOOK

Builds a step-by-step action plan for a specific goal.

COSTBENEFIT

Weighs the upside against the downside of any decision.

Creative & Content

future

Projects your situation forward in time and predicts the likely outcome.

WHATIF

Explores an alternate scenario and plays out what would happen.

SCENARIOPLAY

Simulates a real situation with variables you can change.

/angle

Finds a fresh or unexpected perspective on a familiar topic.

CAPTIONGEN

Generates social media captions ready to copy and paste.

HEADLINEGEN

Creates multiple headline options ranked by impact.

/adspin

Rewrites a message as a short, punchy ad.

VIRALTEST

Scores an idea on its likelihood of getting shared.

REPURPOSE

Takes one piece of content and turns it into five different formats.

/mashup

Combines two unrelated ideas into something new.

PLOTTWIST

Adds an unexpected turn or reversal to any idea or story.

Thinking & Reasoning

INVERSION

Flips a problem upside down and solves it from the opposite direction.

PREMORTEM

Imagines a plan already failed and works backward to find why.

/stakeholders

Identifies everyone affected by a decision and what they care about.

ROOTCAUSE

Drills down past the surface to find the real source of a problem.

DOMINO

Maps the chain reaction of consequences from a single action.

THINKTANK

Generates multiple expert perspectives on a single question.

CONTRARIAN

Argues the opposite of the popular opinion with full conviction.

CONSTRAINTS

Solves a problem within specific limits you set.

TRADEOFFS

Lays out exactly what you gain and lose with each option.

FRAMEIT

Restates a problem in a new way that makes the answer clearer.

BLINDTEST

Removes labels and bias so you can evaluate options on merit alone.

Formatting & Output

SNAPSHOT

Gives a quick, high-level overview in under 50 words.

MATRIX

Organizes options into a grid with scored criteria.

SCORECARD

Rates each option on multiple factors with a final score.

DASHBOARD

Summarizes key metrics and status indicators in one view.

BRIEFING

Formats the response as a short executive brief.

ONESHEET

Compresses everything into a single-page reference sheet.

ACTIONPLAN

Turns the answer into a prioritized list of next steps with owners.

CHEATSHEET

Creates a quick-reference guide you can save and reuse.

CATALOG

Organizes items into a structured, browsable list with details.

/wireframe

Describes a page or screen layout in structured sections.

CANVAS

Opens the response in a side panel you can edit and export.

Utility & Power Commands

/persona

Makes Gemini respond as a specific type of expert or character.

/template

Generates a reusable template for any type of document or message.

/chain

Links multiple instructions together so they run in sequence.

/split

Breaks a long response into smaller, numbered sections.

/extract

Pulls specific data points out of a block of text.

/track

Sets up a structured way to monitor changes or progress over time.

/batch

Processes multiple items at once instead of one at a time.

/gemify

Rewrites a prompt to get better results specifically from Gemini.

/lingua

Responds in any language you specify.

/contextdump

Shows everything Gemini currently knows about your conversation.

/memorize

Tells Gemini to remember a fact or preference for the rest of the chat.
