The Ultimate ChatGPT Image Prompting Guide

30 Viral Use Cases + Copy-Paste Prompts

Everything you can create with ChatGPT's most powerful image model.

- Brand Kits, Logos, and Full Visual Identities
- Facial Analysis, Color Analysis, and Personal Styling
- 360 Panoramas, Infographics, and Technical Blueprints
- Palm Reading, Looksmaxxing, and Viral Social Trends
- Product Ads, Packaging Design, and E-Commerce Photography
- Tattoo Designs, Children's Books, and Creative Art

2026 Edition

What Is GPT Image 2.0?

GPT Image 2 (also called ChatGPT Images 2.0) is OpenAI's most advanced image generation model, released in April 2026. It is built directly into the GPT-4o architecture, which means it can reason about your request before generating. Unlike older models, it handles text rendering almost perfectly, maintains consistency across multiple outputs, and follows complex multi-constraint prompts with impressive accuracy.

This guide gives you 30 of the most powerful, viral, and creative use cases people are using right now, along with copy-paste prompts you can drop directly into ChatGPT.

Why GPT Image 2 Is Different

- **Near-perfect text rendering** - Finally generates legible text inside images. Headlines, labels, stats, and captions come out clean.
- **Multi-constraint prompts** - Can handle 7-8 specific requirements in a single prompt (color, composition, text, style, lighting, etc.).
- **Reasoning before generating** - The model thinks about your prompt before creating, leading to more accurate results on the first try.
- **Face and object consistency** - Same character across multiple images. Great for brand mascots and character sheets.
- **2K resolution output** - High-res results suitable for social media, print, and professional use.
- **Image-to-image editing** - Upload a photo and transform it. Change backgrounds, styles, or add elements while keeping the subject.

How to Access GPT Image 2

GPT Image 2 is available inside ChatGPT for Plus, Pro, and Team subscribers. Simply open a new chat, type your image prompt, and ChatGPT will generate the image directly in the conversation. You do not need to select a separate model or toggle any settings. Just describe what you want and it will generate it.

For API users, the model ID is **gpt-image-2** and it supports both text-to-image and image-to-image workflows.

Quick Start

Open ChatGPT, type a descriptive prompt (the more detail the better), and watch it generate. Upload a photo alongside your prompt if you want to transform or edit an existing image.

#1

BRANDING & DESIGN

Full Brand Kit Generator

Generate an entire brand identity in one conversation: logo, color palette, typography, business cards, social media templates, swag mockups, and even packaging. ChatGPT Image 2 handles text perfectly, so logos with wordmarks come out clean and usable.

The Prompt:

Create a complete brand kit for a [type of company] called '[YOUR BRAND NAME]'. Include: 1) A logo with the brand name in [font style] typography. 2) A color palette showing 4-5 swatches with hex codes, RGB values, and CMYK values. 3) Primary and secondary typography specimens. 4) Business card design front and back. 5) Swag mockups: hoodie, t-shirt, hat, tote bag, water bottle, notebook, and mug, all featuring the brand identity. Present everything in a clean brand guidelines layout with section numbers and labels. [Describe your brand aesthetic: minimal, bold, luxury, tech, etc.]

Pro Tip

The more specific you are about your brand's personality, the better the output. Mention materials ('matte black'), textures ('soft cotton'), and vibes ('startup energy' or 'luxury quiet'). Ask for version 2 to iterate.

#2

VIRAL TREND

Action Figure Packaging

Turn yourself (or anyone) into a collectible action figure in a blister pack. This went massively viral on social media. Upload a photo of yourself and watch ChatGPT create a toy version of you complete with accessories from your real life.

The Prompt:

```
Create a highly detailed, realistic action figure packaging image featuring [me / the person in this photo] as a collectible figure. The packaging should resemble premium collector's edition toy packaging with a clear plastic blister window. Include accessories relevant to [your profession/hobby]: [list 4-5 items, e.g., laptop, coffee mug, phone, notebook, headphones]. The box has bold typography with '[YOUR NAME]' at the top, a tagline '[YOUR TAGLINE]' below, and a small 'LIMITED EDITION' badge. [Describe box color: matte black with gold foil / hot pink / electric blue]. Include a small character bio on the side of the box.
```

Pro Tip

Upload a full-body photo for the best results. Specify your job title or hobby for relevant accessories. Try different box colors and themes for variety.

#3

IMMERSIVE

360 Panoramic Images

Generate equirectangular panorama images that can be dropped into any 360-degree viewer for an immersive VR-like experience. The key is using the correct technical terminology and aspect ratio.

The Prompt:

```
360 equirectangular panorama of [DESCRIBE YOUR SCENE: a cozy Japanese ramen shop interior at night / a tropical beach at sunset / a futuristic space station bridge]. [Add specific details: warm lighting from paper lanterns, steam rising from bowls, wooden counter with stools, detailed menu boards with Japanese text on the walls, rain visible through the entrance]. The image must be seamless when wrapped in a 360 viewer, with consistent lighting across the full field of view. Photorealistic, cinematic atmosphere, 2:1 aspect ratio.
```

Pro Tip

Always start with '360 equirectangular panorama' and request a 2:1 aspect ratio. Drop the output into a free panorama viewer like Kuula.co or Pannellum to explore it interactively.

#4

VIRAL TREND

AI Palm Reading

Upload a clear photo of your palm and ask ChatGPT to perform a detailed palm reading. It analyzes your heart line, head line, life line, fate line, and sun line, then generates a beautifully illustrated palm reading report with labeled diagrams and personalized interpretations.

The Prompt:

Analyze this photo of my palm. Create a detailed, beautifully illustrated palm reading guide. Include: 1) A labeled diagram of my palm showing Heart Line, Head Line, Life Line, Fate Line, and Sun Line with clean annotations. 2) A section called 'THE MAJOR LINES' with individual cards for each line showing characteristics and interpretations. 3) A 'PALM FEATURES' section analyzing palm shape, fingers, thumb, and mounts. 4) A 'WHAT THIS MEANS FOR YOU' section covering Strengths, Challenges, Love and Relationships, Career and Life Path, and Guidance. Use a minimal, elegant design with a warm neutral color palette, clean typography, and icon accents. Make it look like a premium editorial palmistry report.

Pro Tip

Take the photo against a plain dark background with your palm fully open and well-lit. Photograph your dominant hand with fingers spread and all lines clearly visible for the most detailed reading.

#5

VIRAL TREND

The Looksmaxxing / Facial Aesthetics Report

Upload a selfie and ask ChatGPT to create a professional facial aesthetics analysis. It evaluates symmetry, proportions, bone structure, and individual features, then generates a detailed visual report card with scores and recommendations.

The Prompt:

Create a clean, minimal, high-end facial aesthetics report based on the uploaded photo, using a black-on-white editorial design with thin linework, rounded cards, generous spacing, modern typography, and a refined luxury feel. Include an isolated front-facing image of the face, presented as an analytical attractiveness-assessment diagram. Provide an honest, objective evaluation of facial attractiveness potential, avoiding excessive flattery and focusing on symmetry, facial thirds, overall proportions, eye spacing and shape, nose harmony, lip proportion, jawline, chin, cheekbone structure, skin texture and tone, hairline, hairstyle, grooming, overall facial harmony, and photogenic potential. Assign clear, realistic scores to each major category, along with one overall attractiveness-potential score, keeping the ratings grounded, useful, and not artificially inflated. Include practical, achievable recommendations to improve attractiveness potential, covering grooming, haircut, facial hair, skincare, eyebrow shaping, posture, weight loss, minor aesthetic procedures, styling, and photo presentation. Maintain a refined, direct, constructive tone that feels elegant, credible, and easy to understand, with an emphasis on actionable improvements that build on the subject's existing strengths.

Pro Tip

Use a front-facing photo with neutral expression and even lighting. This is meant for fun and entertainment. The more neutral and well-lit your photo, the more detailed the analysis will be.

#6

PERSONAL STYLING

Personal Color Analysis

Upload a portrait and get a full color analysis showing which clothing colors look best on you versus which ones to avoid. ChatGPT generates side-by-side comparisons with your face in different colored tops, making it visual and instantly useful.

The Prompt:

Create a personal color analysis graphic using this portrait. Show side-by-side clothing color comparisons to highlight which colors suit the subject best. Make it visual-first, with short labels only and no paragraphs. Include: 1) A 'BEST COLORS' row showing 5 flattering colors with the subject wearing each. 2) A 'LESS FLATTERING' row showing 5 colors that don't complement the subject's skin tone. 3) A 'BEST PALETTE' section with color swatches and names. Label each color clearly (e.g., Emerald, Teal, Cobalt Blue, Warm Red, Lavender). Use a clean, editorial layout with a warm neutral background.

Pro Tip

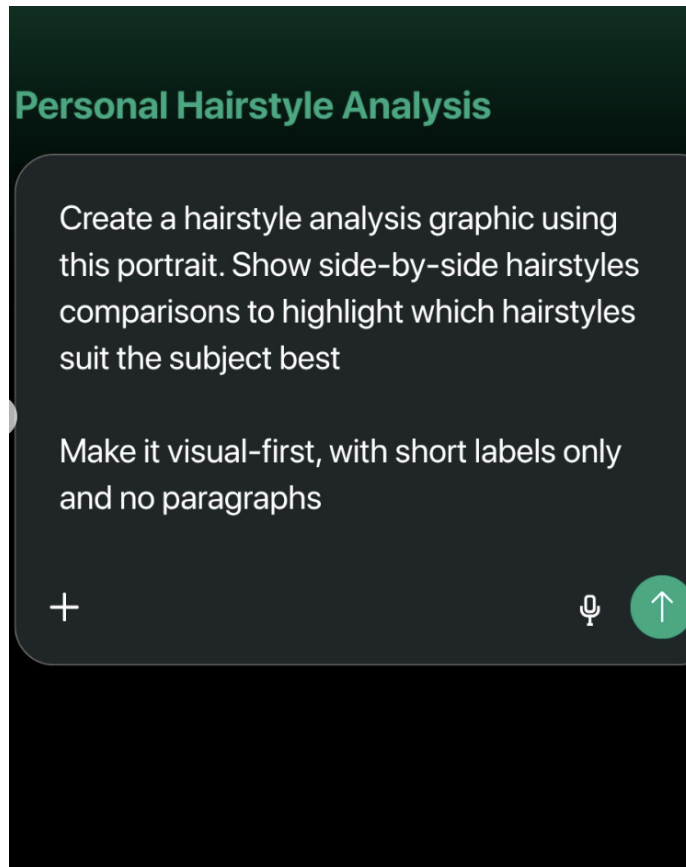

Upload a well-lit portrait photo with minimal makeup for the most accurate analysis. Natural daylight works best. This makes incredible shareable content on social media.

#7

PERSONAL STYLING

Personal Hairstyle Analysis

Upload your photo and see yourself with six or more different hairstyles, rated from 'Best' to 'Less Ideal.' ChatGPT generates realistic variations of your face with different cuts and styles so you can visualize what works before visiting the barber or salon.

The Prompt:

Create a hairstyle analysis graphic using this portrait. Show side-by-side hairstyle comparisons to highlight which hairstyles suit the subject best. Make it visual-first, with short labels only and no paragraphs. Include: 1) A top row of 3 'Best' hairstyles with gold borders and star badges, each labeled with the style name (e.g., Textured Quiff, Classic Side Part, Soft Curtains). 2) A middle row of 2-3 'Good' options. 3) A bottom row of 2-3 'Less Ideal' styles with red badges. 4) A 'BEST HAIR COLORS' section showing 4 recommended colors as circle swatches with labels. Keep the subject's face consistent across all variations. Clean editorial layout.

Pro Tip

A front-facing photo with hair pulled back works best so the AI can visualize all styles clearly. Great for bringing to your barber or stylist to show exactly what you want.

#8

PERSONAL STYLING

Personal Makeup Analysis

Upload a portrait and receive a visual makeup guide personalized to your features. ChatGPT analyzes your skin tone, face shape, and features, then creates a graphic showing the best foundation shades, eye looks, blush colors, lip colors, and contouring techniques for your face.

The Prompt:

Create a visual makeup analysis graphic using this portrait. Feature side-by-side comparisons to determine which makeup best suits the subject, and showcase their skin undertone. The graphic should be visual-first, using only short labels with no paragraphs. Include sections for: 1) FOUNDATION - showing 3 shade matches on the subject's skin. 2) EYES - recommended shadow colors, liner style, and lash look. 3) BLUSH - 3 color options with swatches. 4) LIPS - 3 recommended lip colors shown on the subject. 5) HIGHLIGHT AND CONTOUR - a brief technique guide. Label each recommendation clearly with product-style names (e.g., Soft Brown Shadow, Rose Mauve, Berry Pink). Clean, editorial beauty-magazine layout.

Pro Tip

Upload a photo without heavy makeup so the AI can accurately assess your natural skin tone and features. This pairs perfectly with the color analysis for a complete style guide.

#9

PERSONAL STYLING

Personal Outfit / Style Guide

Upload a photo and get a visual lookbook of 8 or more outfit combinations styled specifically for your body type and aesthetic. Each outfit is shown on you with labeled clothing items and arrows pointing to key pieces.

The Prompt:

Create a personal outfit and style guide using this photo. Generate a grid of 8 complete outfit combinations styled on the subject. Each outfit should be labeled with arrows pointing to key pieces (e.g., 'overshirt', 'knit sweater', 'tailored trousers', 'clean sneakers'). Include a mix of: casual everyday looks, smart casual, weekend relaxed, and slightly dressed up options. Keep the subject's face and body consistent across all outfits. Use a warm, neutral background. Style should feel like a [men's/women's] fashion editorial lookbook. Clean typography for labels. The overall aesthetic should be [describe: modern minimalist / streetwear / classic / preppy / etc.].

Pro Tip

Specify your personal style (minimalist, streetwear, classic, etc.) and any pieces you already own. Great for planning a capsule wardrobe or getting ideas before shopping.

#10

PRODUCTIVITY

Handwritten Notes to Digital

Take a photo of your messy handwritten notes and ask ChatGPT to scan, organize, and transform them into a beautifully formatted digital document or infographic. It reads your handwriting and recreates the content in a polished visual format.

The Prompt:

I'm uploading a photo of my handwritten notes. Please: 1) Read and transcribe everything on the page. 2) Organize the content into logical sections with clear headings. 3) Generate a clean, beautifully formatted digital version of these notes as an image. Use a modern notebook style with color-coded sections, [your color preference: blue and grey / earth tones / pastels], bullet points, and highlighted key terms. Make it look like premium digital notes you'd see in a study app like Notion or Goodnotes.

Pro Tip

Works best with reasonably legible handwriting on a plain background. Take the photo in good lighting without shadows across the page.

#11

MARKETING

Infographic Generator

Create publication-ready infographics with accurate text, stats, icons, and visual hierarchy. GPT Image 2's text rendering makes this actually viable for the first time.

The Prompt:

```
Create a vertical infographic titled '[YOUR TITLE]' with the following sections: 1) Header with bold title and subtitle '[YOUR SUBTITLE]'. 2) [Describe section 2: a timeline, process flow, or comparison]. 3) Three stat callouts: '[STAT 1]', '[STAT 2]', '[STAT 3]'. 4) A tips section with [NUMBER] icons and labels for [TOPIC]. Use a [dark navy / white / gradient] background with [describe color accent]. Clean sans-serif typography throughout. The style should feel [modern and minimal / playful and colorful / corporate and clean].
```

Pro Tip

Be extremely specific about the text, numbers, and layout. The more precise you are about what text goes where, the better the output. Always specify your color palette.

#12

PERSONAL BRANDING

Magazine Cover (You on Vogue/Forbes)

Put yourself on the cover of a luxury magazine. Upload your photo and get a Vogue, Forbes, GQ, or Time-style cover complete with headlines, barcode, and realistic editorial layout.

The Prompt:

```
Create a luxury magazine cover in the style of [MAGAZINE NAME: Vogue / Forbes / GQ / Time / Wired] featuring [me / the person in this photo] as the cover model. Include: the magazine title '[MAGAZINE NAME]' in large elegant serif at the top, a main headline '[YOUR HEADLINE]' in white, three cover lines on the left side ('[COVER LINE 1]', '[COVER LINE 2]', '[COVER LINE 3]'), a barcode in the bottom right, and an issue date '[MONTH YEAR]'. Use dramatic editorial lighting with a [soft gradient / studio / outdoor] background. Professional [fashion / business / tech] photography composition.
```

Pro Tip

Upload a well-lit portrait photo (waist up works best). Specify which magazine style you want. Works great for LinkedIn content, speaker bios, or fun social media posts.

#13

CONTENT CREATION

YouTube Thumbnail Generator

Generate scroll-stopping thumbnails with bold text, expressive faces, and high-contrast visuals. Perfect for content creators who want professional thumbnails without Photoshop.

The Prompt:

Create a YouTube thumbnail with a [split-screen / single subject / before-after] design. [Describe the scene: a shocked person with wide eyes, a glowing futuristic element, a dramatic comparison]. Include large bold [yellow / red / white] text with black outline that says '[YOUR TEXT - 3 to 5 words max]'. High contrast, vibrant saturated colors, slight dramatic zoom effect. The overall mood should create curiosity and urgency. No borders, full bleed image. 16:9 aspect ratio.

Pro Tip

Use high-contrast colors, large readable text (3-5 words max), and exaggerated facial expressions. Include an element that creates a 'curiosity gap' to drive clicks.

#14

E-COMMERCE

Product Ad Campaign

Generate scroll-stopping product advertisements with dynamic compositions, hero text, and lifestyle photography. Think Nike, Apple, or any major brand's campaign visuals, but for your product.

The Prompt:

Create a premium product advertisement for [YOUR PRODUCT: e.g., a sneaker brand called 'ALTRO']. Show [describe the hero shot: a model in athletic clothing mid-jump with the product prominently featured]. Include bold typography with the product name '[PRODUCT LINE NAME]' in large letters behind/around the subject. Add supporting copy: '[TAGLINE]' at top, '[KEY FEATURES - 2-3 short lines]' on the side, and brand name + slogan at the bottom ('[BRAND NAME]' / '[SLOGAN]'). Dynamic, energetic composition with [describe mood: teal and cream / neon and dark / clean and minimal]. Professional advertising photography with motion blur and energy effects.

Pro Tip

Study real ads from brands you admire and describe their composition style. Mention specific visual effects like 'motion blur', 'particle effects', 'glow rings', or 'floating elements' for more dynamic results.

#15

TECH & DESIGN

UI/UX App Mockups

Generate high-fidelity mobile app and website mockups instantly. Perfect for pitching ideas, social media content, or rapid prototyping without Figma.

The Prompt:

A high-fidelity mobile app UI screen for a [TYPE OF APP: meditation / fitness / finance / social / food delivery] app. [Dark mode / light mode] design. Show a [HOME / PROFILE / DASHBOARD] screen with: [ELEMENT 1: user greeting 'Good evening, [NAME]'] at top], [ELEMENT 2: main visual or data display], [ELEMENT 3: action buttons or selectors], [ELEMENT 4: primary CTA button in [COLOR] gradient saying '[BUTTON TEXT]'], and a bottom navigation bar with [TAB 1], [TAB 2], [TAB 3], and [TAB 4] icons. [Glassmorphism / Material Design / iOS native] style, subtle blur effects, [FONT NAME] font aesthetic.

Pro Tip

Specify exact text, button labels, and element positions. Mention the design system (Material Design, iOS, glassmorphism, etc.) for consistent results.

#16

ART & STYLE

Studio Ghibli Transformation

Transform any photo into a Studio Ghibli anime-style illustration. This was one of the most viral trends when ChatGPT image generation launched. Upload a photo of yourself, your pet, or any scene.

The Prompt:

Transform this photo into a Studio Ghibli animated film style. Keep the same composition and subject but render everything in the distinctive Ghibli aesthetic: soft watercolor-like backgrounds, warm natural lighting, gentle wind in hair/clothes, lush green environment, puffy cumulus clouds in a blue sky, and the characteristic Ghibli character design with expressive but gentle features. The mood should feel peaceful and nostalgic, like a still frame from [Spirited Away / Howl's Moving Castle / My Neighbor Totoro / Princess Mononoke].

Pro Tip

Upload any photo. This works with selfies, landscapes, pets, food, or cityscapes. The more natural/outdoor the original scene, the more authentic the Ghibli result feels.

#17

E-COMMERCE

Custom Product Packaging Design

Design cereal boxes, supplement bottles, coffee bags, candle packaging, or any product packaging from scratch. GPT Image 2 handles the text labels perfectly.

The Prompt:

Design premium packaging for a [PRODUCT TYPE: coffee bag / cereal box / supplement bottle / candle / skincare] brand called '[BRAND NAME]'. The [PACKAGE TYPE] is [MATERIAL: matte black kraft paper / glossy white box / amber glass jar], [ORIENTATION: standing upright / lying flat]. The label features: brand name '[BRAND NAME]' in [FONT STYLE] at the top, '[PRODUCT VARIANT]' below in smaller text, a [ILLUSTRATION STYLE: minimalist line / watercolor / geometric] illustration of [SUBJECT], [ADDITIONAL TEXT: tasting notes, ingredients, weight/volume], and '[SIZE/WEIGHT]' at the base. [ACCENT DETAILS: gold foil elements / embossed texture / holographic sticker]. A few [SCATTERED PROPS: coffee beans / herbs / flower petals] around the base. Clean product photography on [BACKGROUND COLOR] background.

Pro Tip

Be exact about every piece of text on the package. Specify material (kraft, matte, glossy), colors, and font styles. Great for mockups before investing in actual packaging design.

#18

STORYTELLING

Comic Strip Generator

Create multi-panel comic strips with consistent characters, speech bubbles, and storylines. Perfect for social media content, educational materials, or just fun.

The Prompt:

Create a [3/4/6]-panel comic strip in a [clean modern / retro halftone / manga / watercolor] illustration style. Panel 1: [SCENE DESCRIPTION]. Speech bubble: '[DIALOGUE]'. Panel 2: [SCENE DESCRIPTION]. [Caption/speech bubble: '[TEXT]']. Panel 3: [SCENE DESCRIPTION]. Panel [LAST]: [PUNCHLINE SCENE]. Caption: '[PUNCHLINE TEXT]'. Clean white background, bold outlines, vibrant flat colors. Keep the main character looking consistent across all panels.

Pro Tip

Keep panel count to 3-6 for best results. Describe each panel individually. Specify that characters should look consistent across panels. Mention speech bubble text explicitly.

#19

VIRAL TREND

Holographic Trading Card

Turn yourself into a collectible holographic trading card like Pokemon, Yu-Gi-Oh, or a sports card. Upload your photo and get a full card with stats, rarity, and holographic effects.

The Prompt:

Create a holographic trading card featuring [me / the person in this photo]. Design it like a premium collectible card game format with: a holographic rainbow border with light refraction effects, [my/their] image in a dynamic pose in the center, a name bar at the bottom with the name '[YOUR NAME]', stat bars for [STAT 1]: [VALUE], [STAT 2]: [VALUE], [STAT 3]: [VALUE], [STAT 4]: [VALUE]. Include a rarity indicator ([NUMBER] stars, [RARITY TIER: Common / Rare / Epic / Legendary] tier), a card number '#[NUMBER]/[TOTAL]' in the corner, and a [cosmic nebula / elemental fire / electric] background behind the figure. Shiny, iridescent surface effects throughout.

Pro Tip

Upload a photo with a clear face and interesting pose. Customize the stats to reflect your personality or profession. Makes for incredible social media content.

#20

FOOD & LIFESTYLE

Professional Food Photography

Generate restaurant-quality food photography for menus, social media, or recipe blogs. Or upload a photo of your home-cooked meal and make it look professional.

The Prompt:

A stunning [overhead flat-lay / 45-degree angle / close-up macro] food photograph of [DESCRIBE YOUR DISH/SPREAD in detail]. Include props: [LIST PROPS: linen napkin, cutlery, fresh herbs, small jar of honey, glass of wine, flowers]. [SURFACE: rustic wooden table / marble countertop / dark slate / white ceramic]. Soft natural [window light from the upper left / golden hour / studio strobe] lighting. Shallow depth of field on edges. Professional food photography, shot for [a lifestyle magazine / Instagram / restaurant menu]. [MOOD: warm and cozy / bright and fresh / moody and dramatic] color grading.

Pro Tip

Specify the exact dishes, their arrangement, lighting direction, and table surface material. Mention 'food photography' or 'food styling' for that commercial look.

#21

FUN & VIRAL

Custom Meme Generator

Create original, custom meme images that don't exist anywhere else. No more searching for the perfect template. Describe your meme concept and get a unique image instantly.

The Prompt:

```
Create a meme image of [DESCRIBE THE FUNNY SCENE: a golden retriever sitting at an office desk wearing a tiny necktie, looking intensely at a laptop with reading glasses]. [SETTING DETAILS: office cubicle, fluorescent lighting, a coffee mug that says '[FUNNY MUG TEXT]']. Above the image in bold white Impact font with black outline: '[YOUR MEME TEXT - TOP]'. [Optional: Below the image: '[YOUR MEME TEXT - BOTTOM]']. Photorealistic with comedic timing. The expression should convey [EMOTION: confusion, panic, supreme confidence, existential dread].
```

Pro Tip

Describe the scene in detail, then specify the text separately. Impact font with white text and black outline is the classic meme format. The funnier the contrast between subject and setting, the better.

#22

PROFESSIONAL

LinkedIn-Ready Headshots

Transform a casual selfie into a polished, professional headshot suitable for LinkedIn, speaker bios, or company websites. No photographer needed.

The Prompt:

Transform this casual photo into a professional corporate headshot. Keep my exact face, features, and expression but: change the background to a clean, soft [grey gradient / navy blue / warm beige] studio backdrop, improve the lighting to professional three-point studio lighting, adjust my attire to a [navy blue blazer over a white shirt / black turtleneck / professional blouse] (if not already wearing professional clothing), and add subtle catchlights in the eyes. The result should look like it was shot by a professional portrait photographer with an 85mm lens at f/2.8. Natural skin texture, no over-smoothing, subtle pores visible.

Pro Tip

Upload a front-facing photo with good lighting on your face. Works best when your face is already clear and well-lit in the original. Specify the background color and clothing style you want.

#23

ENTERTAINMENT

Movie Poster Concept

Design a cinematic movie poster for a real or fictional film. Includes dramatic composition, title treatment, cast credits, and genre-appropriate styling.

The Prompt:

Design a dramatic movie poster for a [GENRE: sci-fi thriller / horror / romantic comedy / action] called '[MOVIE TITLE]'. Show [DESCRIBE THE KEY VISUAL: a lone astronaut on a barren alien landscape looking up at an enormous glowing geometric structure]. The title '[MOVIE TITLE]' is displayed in [FONT STYLE: large futuristic sans-serif / dripping horror / elegant script] at the [top / bottom / center]. Below the image: '[TAGLINE]' in small caps. At the bottom, include a credits block in the standard tiny movie poster font. Color palette: [DESCRIBE: deep blues and blacks with cyan accent / blood red and black / warm golden tones]. Cinematic, high contrast, [IMAX / vintage grindhouse / Criterion Collection] poster format.

Pro Tip

Specify the genre clearly (horror, comedy, sci-fi, romance) as it dramatically changes the composition and color grading. Include taglines, credits, and rating badges for realism.

#24

PERSONAL

Custom Tattoo Design

Design a unique tattoo concept tailored to your preferences. Specify style, placement, size, and meaning. Get a clean reference image to bring to your tattoo artist.

The Prompt:

Design a tattoo for the [PLACEMENT: inner forearm / upper arm / shoulder / back / ribs], approximately [SIZE: 4/6/8] inches [tall/wide]. Style: [STYLE: fine-line black and grey / traditional American / watercolor / geometric / Japanese / blackwork / neo-traditional / minimalist]. Subject: [DESCRIBE YOUR DESIGN: a geometric wolf portrait where half the face is realistic with detailed fur texture and the other half dissolves into sacred geometry patterns]. [ADDITIONAL ELEMENTS: small crescent moon above / flowers wrapping around / banner with text '[YOUR TEXT]']. The composition should be [vertical and narrow / circular / horizontal] to fit the [PLACEMENT] naturally. Clean white background, tattoo flash sheet presentation.

Pro Tip

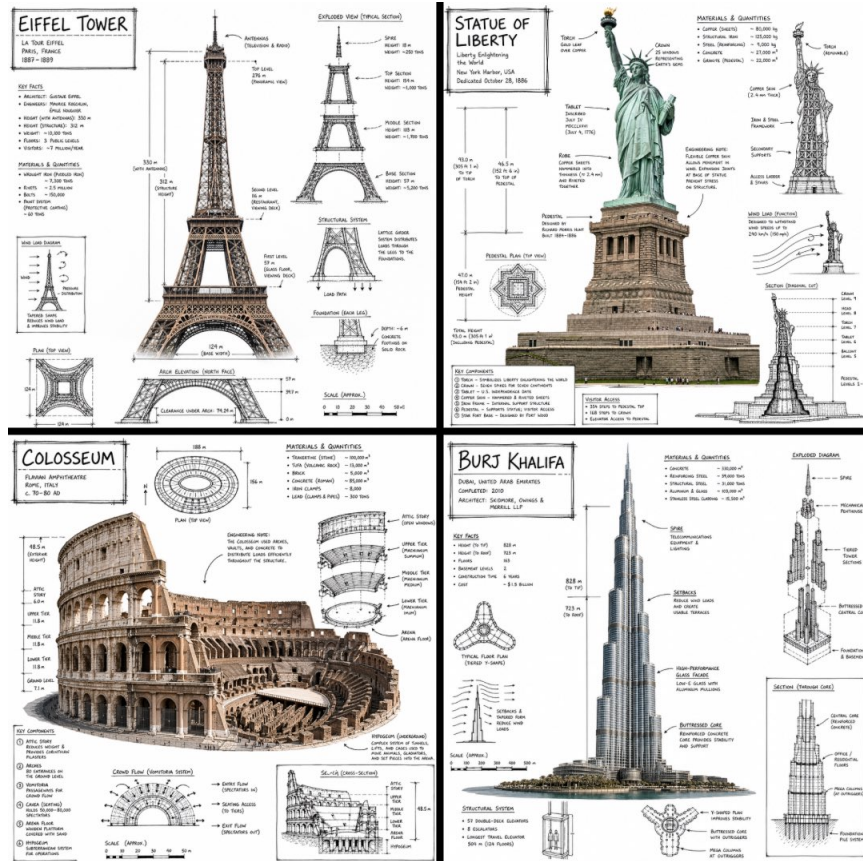

Specify placement and size so the composition fits correctly. Mention 'tattoo flash sheet' or 'tattoo reference' for clean, artist-friendly outputs. Be specific about style.

#25

TECHNICAL

Blueprint and Technical Drawing

Generate detailed technical blueprints, architectural diagrams, and engineering-style drawings of famous structures, product concepts, or inventions. Complete with labeled callouts, dimensions, cross-sections, and materials lists.

The Prompt:

Generate a technical blueprint illustration of [SUBJECT: the Eiffel Tower / a futuristic electric motorcycle / your dream house / a mechanical watch], displayed from [NUMBER] perspectives: [LIST: side view, top view, front elevation, cross-section, exploded view]. [Blue technical drawing paper background with white line work / White paper with black line art / Aged parchment with brown ink]. Include: dimension lines with measurements, component callouts labeling [LIST KEY PARTS], a materials and quantities table, key facts section, and a scale bar at the bottom. Engineering precision line art, [patent drawing / architectural blueprint / Da Vinci manuscript] aesthetic.

Pro Tip

Specify the number of views and what labels to include. Reference 'architectural blueprint', 'patent drawing', or 'engineering diagram' for different visual styles. These make incredible wall art prints.

#26

EDUCATION

Children's Book Illustrations

Generate consistent, charming illustrations for children's stories. Great for self-publishing, classroom materials, or personalized bedtime story books for your kids.

The Prompt:

Create a children's book illustration of [DESCRIBE SCENE: a small red fox wearing a tiny blue backpack, walking across a mossy log bridge over a gentle stream in an enchanted forest]. [DETAIL: fireflies glow around the scene, large friendly mushrooms grow along the stream bank]. The style should be [warm and inviting / bold and graphic / soft and dreamy] like a classic picture book. [ART MEDIUM: watercolor and colored pencil texture / digital gouache / cut-paper collage], gentle [pastel / vibrant / earth tone] colors with [warm golden / cool blue / soft pink] light filtering through. The [CHARACTER] looks [EMOTION: curious and brave / sleepy and cozy / excited and joyful].

Pro Tip

Describe your character in detail once, then reference 'the same red fox with the blue backpack' in subsequent prompts for consistency. Specify the art style for a cohesive book feel.

#27

FUN & VIRAL

Plushy and Claymation Transformation

Turn any photo into a cute plush toy version or a Claymation-style character. One of the most shared viral trends. Works with selfies, pets, objects, or anything.

The Prompt:

Transform this photo into a cute [3D plush toy version / Claymation character / vinyl figurine]. The subject should look like a [handmade stuffed animal made from soft fleece and felt / stop-motion clay figure / glossy vinyl collectible]. [FOR PLUSHY: visible stitching along the seams, button eyes with a slight shine, rosy embroidered cheeks, and a soft cotton stuffing feel]. [FOR CLAYMATION: visible fingerprint impressions in the clay, slightly imperfect shapes, matte texture]. Place it on a clean white background as if it's a product photo for a toy store. Soft studio lighting with subtle shadows. Kawaii aesthetic, chubby proportions, irresistibly cute.

Pro Tip

This works with literally anything: your face, your pet, your car, food, buildings. The more unexpected the subject, the more fun and shareable the result.

#28

ART & CREATIVE

Double Exposure Photography

Create stunning double exposure art that combines a portrait silhouette with a landscape or scene inside it. A premium photography technique generated instantly.

The Prompt:

Create a dramatic double exposure photograph. A silhouette of a [woman's / man's] profile facing [right / left]. Inside the silhouette, reveal [DESCRIBE SCENE: a dense foggy pine forest with morning light streaming through the trees and a lone eagle soaring / a bustling cityscape at night with neon lights / ocean waves crashing on rocks]. The edges of the silhouette blend seamlessly into a pure [white / black / colored] background. Fine art photography style with [high contrast / soft gradient / moody tones]. [Warm golden tones in the light rays / cool blue moonlight / vibrant sunset colors]. Minimalist composition.

Pro Tip

Specify the profile direction (left or right facing), what scene goes inside (nature works best), and the background color. This creates gallery-worthy art in seconds.

#29

MUSIC & ENTERTAINMENT

Album Cover / Vinyl Record Art

Design custom album covers for any music genre. Perfect for independent artists, playlist covers, or creative projects.

The Prompt:

Create a vinyl record cover for a [GENRE: jazz / hip-hop / electronic / indie rock / classical] album called '[ALBUM TITLE]'. The cover shows [DESCRIBE THE SCENE: a rain-soaked Tokyo alley at night with neon signs reflecting in puddles and a silhouette of a saxophone player under a small awning]. The album title '[ALBUM TITLE]' is in [TYPOGRAPHY STYLE: vertical Japanese-inspired / bold graffiti / clean helvetica / hand-lettered] on the [right side / center / bottom]. Artist name '[ARTIST NAME]' in small elegant text at the [top / bottom]. [MOOD: moody film noir with cyan and magenta neon / warm golden vinyl aesthetic / raw punk energy with red and black]. Cinematic, atmospheric, 12-inch square format.

Pro Tip

Specify the genre as it heavily influences the visual style. Mention '12-inch square format' for proper vinyl cover proportions.

#30

BUSINESS

Website Landing Page Design

Generate a full website landing page mockup in seconds. Great for pitching ideas to clients, rapid prototyping, or visualizing a concept before building it.

The Prompt:

Design a modern [SaaS / e-commerce / agency / portfolio] website landing page for [PRODUCT/COMPANY NAME: e.g., an AI writing assistant called 'Quill']. Show the full page scrolled to the hero section. Include: a large headline '[YOUR HEADLINE]', a subheadline '[YOUR SUBHEADLINE]', a [purple / blue / green / orange] gradient CTA button saying '[CTA TEXT]', a [browser mockup showing the product / hero image / illustration], [floating testimonial cards / social proof logos / feature icons], and a clean [white / dark] background with subtle [color] gradient accents. Modern [SaaS / agency / e-commerce] design, [Inter / SF Pro / Poppins] font aesthetic, plenty of white space. Desktop viewport, 1440px wide.

Pro Tip

Specify the viewport width, font aesthetic, and color scheme. Include all the text you want displayed. Reference well-known designs (Linear, Notion, Stripe) for style direction.

Bonus: 10 Prompting Rules for GPT Image 2

1. Be Brutally Specific

Vague prompts get generic output. Instead of 'a cat,' say 'a fluffy orange tabby cat sitting on a windowsill watching rain, soft natural lighting, shot on 35mm film.' Every detail you add improves the result.

2. Specify Your Text Exactly

If you want text in the image, write the EXACT words in quotes. 'A sign that says "OPEN 24 HOURS"' not 'a sign with opening hours.'

3. Mention the Camera/Lens

Adding '85mm portrait lens, f/1.8' or 'wide-angle 16mm' or 'macro photography' dramatically changes composition and depth of field.

4. Name Your Lighting

Studio lighting, golden hour, neon signs, overcast daylight, dramatic side light, ring light. Lighting sets the entire mood.

5. Reference Real Styles

Say 'Wes Anderson color palette' or 'shot like a Christopher Nolan film' or 'Architectural Digest photography style' for instant stylistic direction.

6. Use Image-to-Image

Upload a reference photo alongside your prompt. 'Make this look like a Pixar character' or 'Put this product in a luxury setting' works incredibly well.

7. Specify What NOT to Include

Add negative instructions: 'No text overlays, no watermarks, no blurry edges, no extra fingers.' This helps avoid common AI artifacts.

8. Request Multiple Elements

GPT Image 2 handles 7-8 constraints well. Don't be afraid to ask for specific colors + lighting + composition + text + style in one prompt.

9. Iterate, Don't Start Over

After your first result, say 'Same image but make the background darker' or 'Keep everything but change the font to serif.' Build on what works.

10. Specify Dimensions

Mention aspect ratio or resolution: 'Instagram story format 9:16' or 'wide cinematic 21:9' or 'square 1:1 for profile picture.'

Quick Reference: All 30 Use Cases

#	Use Case	Category	Key Words to Start Your Prompt
1	Full Brand Kit	Branding	"Complete brand kit for [brand name]..."
2	Action Figure	Viral	"Action figure packaging featuring me..."
3	360 Panorama	Immersive	"360 equirectangular panorama of..."
4	Palm Reading	Viral	"Analyze this photo of my palm..."
5	Looksmaxxing	Viral	"Facial aesthetics report based on..."
6	Color Analysis	Styling	"Personal color analysis graphic..."
7	Hairstyle Analysis	Styling	"Hairstyle analysis graphic..."
8	Makeup Analysis	Styling	"Visual makeup analysis graphic..."
9	Outfit Guide	Styling	"Personal outfit and style guide..."
10	Notes to Digital	Productivity	"Transform these handwritten notes..."
11	Infographic	Marketing	"Create a vertical infographic titled..."
12	Magazine Cover	Personal	"Luxury magazine cover in the style of..."
13	YouTube Thumbnail	Content	"YouTube thumbnail with..."
14	Product Ad	E-Commerce	"Premium product advertisement for..."
15	App Mockup	Tech	"High-fidelity mobile app UI for..."
16	Ghibli Style	Art	"Transform this photo into Studio Ghibli..."
17	Packaging Design	E-Commerce	"Design premium packaging for..."
18	Comic Strip	Storytelling	"Create a [#]-panel comic strip..."
19	Trading Card	Viral	"Holographic trading card featuring me..."
20	Food Photography	Lifestyle	"Professional food photograph of..."
21	Custom Meme	Fun	"Create a meme image of..."
22	Pro Headshot	Professional	"Professional corporate headshot..."
23	Movie Poster	Entertainment	"Movie poster for [title]..."
24	Tattoo Design	Personal	"Design a tattoo for [placement]..."
25	Blueprint	Technical	"Technical blueprint illustration of..."
26	Children's Book	Education	"Children's book illustration of..."
27	Plushy/Claymation	Fun	"Transform this into a plush toy..."
28	Double Exposure	Art	"Double exposure silhouette with..."
29	Album Cover	Music	"Vinyl record cover for [genre]..."
30	Landing Page	Business	"Modern SaaS landing page for..."
